Market Owner Cites Gain In New Business

Mario Saia, owner of the meat department in the Double AA Market said yesterday that substantial gains had been made in his business since first established here a year ago. He said the increase has been especially noticed in the last few months, much of this being due to consistent advertising.

Mario Saia has been in the meat business for five years in California was for over eighteen years in the same business in the East. One year ago in the meat department was Saia and Bill Samford, while today the department employs two more men, Charles Barret and Robert Saia.

Samford began work in a meat shop on Campbell avenue nineteen years ago, continuing with various shops in the valley until five years ago when he became associated with Mario Saia and a year ago at Double AA Market as manager.

Barrett has been around a meat shop most of his life, working for his father's shop at Bremerton, Washington before coming to Campbell.

Bob Saia has been putting in spare time working for his father for the last ten months learning the meat business, while also attending San Jose State College as a major in business administration.

Thousands See Colorful Old Settler Day Parade

A parade in six divisions moved along Campbell avenue from west of the High School to Harrison avenue and a reviewing stand Sunday afternoon in a period of two hours and ten minutes as a feature of the 63rd annual Old Settler's Days Celebration. There were bands and drum corps, marching units, tumblers, baton twirlers, commercial and amateur floats of every description in a colorful array of talent.

The crowd has been variously estimated at from 12,000 to 15,000. Chamber of Commerce officials, sponsors of the 1955 celebration reported that there were 147 entries in the parade as compared with 82 in the 1954 parade. The parade was twenty minutes late in starting because the 6th Infantry band lost its way at Almaden and got here late.

The parade this year saw many organization entries especially in the junior division, all attracting great interest.

The California Prune and Apricot Growers Association again won first prize in the commercial exhibits but they were pressed by a late entry from Lucky Lager, just made and the first parade in which it was entered. Prune Association exhibit was made of huge golden cartons of dried fruit towering high in the air with the sunsweet trademark bordering the edge of the float, and shown shopping at a make-believe counter were Rosalie DePalma and Angie Arosie with market carts filled with Association's products. The float is made locally each year, volunteer workers this year having been Azeveda, Frank LaBari, John Yerkovich, Herman Rice, Sr., Robert Scholz, Herman Gerdts, Raymond Evors, Angie Arosio, Erma, Reese, Eloise Parker and Myrl Block. The float is to be entered in a Los Gatos parade and other parades throughout the season.

Cherry Lane Home and School Club took first prize for amateur division depicting a huge cherry pie with six youngsters wearing red, cherry shaped helmets poking their heads through the upper crust while a boy stood by with a knife and a wide-eyed girl awaited with a silver platter for a piece of the pie. Committee making the float with their wives were Larry Cunha, Owen Peterson, Henry Kahrmann, Sam McGinty, Frank Corral, Frank Pierson and Bert Carne.

One of the interesting parade entries which received a special award was little Tucker Tomlinson dressed as a pioneer and leading a large jet black cardboard mule on which his father had labored for two or three evenings. Tucker wore a sign reading "I'm five in '55. I'm staking my future on Campbell", and, bringing up the rear was his smaller brother Terry with another sign saying "Me too, I'm his brother".

According to Mrs. Tomlinson the family had tried to get Terry to enter the parade from the very first but he had demurred for vari-

CANCER CRUSADE NEARS QUOTA IN CAMPBELL AREA

An urgent plea came today from C. E. Bradley, chairman of the Campbell Cancer Crusade, for all those who have not yet done so to send their contributions to the annual campaign.

"We are within sight of our $1400 goal, but have not reached it yet. The need is great as there is much vital work to be done of the Nation's No. 2 killer is to be stopped", Bradley stated.

So far in the Crusade, the neighbor-to-neighbor campaign in the Cambrian Park area has netted $466.99; the benefit play performances by the Campbell Footlighters earned another $150. Contributions sent by mail, placed in cancer cans, or received on the recent Red Sword Day totalled $50 which with what has been received through the mails makes $900 on hand. Bradley said $150 net is expected from the play and another $50 through the mail bringing total to $1100 which is $300 short of the quota.

Bradley asked that contributions be sent to Cancer, c/ PO Box 698, Campbell, before May 2, if possible.

MAN KILLED BY TRUCK

He was Nick Histov, 45, of 12396 Saratoga Avenue, Saratoga.

John Parker Is Man Of The Year In Cambrian Park

THE WEALTH OF A COMMUNITY

It takes a lot of work to put on a program such as the Old Settlers' Celebration, work which is often shouldered by a few who are able to overcome discouragements and inject instead their own enthusiasm. Most communities have some such annual event for they find it to be wholesome and a means for expressing community interests and a search for community appreciation.

For 63 years this has been continued in Campbell until now it has recognition throughout the state. The crowds along Campbell Avenue and Harrison Street Sunday to see the mile and a half long parade numbered conservatively 12,000 and there were estimates that it was 15,000. That alone indicates that there were many visitors here, most of whom expressed pleasure at the wholesome community spirit. One couple from Los Angeles who came for this event alone said such a spirit is just about unknown down there now, as everything has become commercial.

We notice it here not alone each year with the Old Settlers' Days, but also in our Home and School club affairs, PTA programs, churches, clubs and other organizations. What community for instance would have a service club with 58 members, fifty of whom would take a weekend off to attend a district convention in Nevada, charter a bus and leave on a busy mid-week day for an interclub meeting 200 miles away in the San Joaquin Valley; another club whose members would give of their spare time and money to provide a stadium for Little League baseball, and that would provide enamel signs identifying all the streets in a newly incorporated city; another club that supports the needy blind? What other community of 8,000 population would you find 23 couples meeting for Sunday services at Palm Springs?

Campbell did it. Indeed, the wealth of a community is not always the number of its millionaires, its factories, its institutions of learning—a communty is rich that has perpetually that wholesome community character and understanding of common welfare.

MOTHER'S DAY

The modern mother is hardly the type whose world begins with getting breakfast and ends with putting the youngsters to bed at night. Not that these duties are any less important to her than they were to her mother, but women today have broadened their interests.

School and civic affairs, economic and political matters, charitable and relief activities all draw the attention of the modern mother. Many mothers handle full-time or part-time jobs. Some have successful businesses of their own or are invaluable partners in business with their husbands.

But this broader field of activity has not altered the basic devotion of mothers to their families. The same affection and tenderness for her loved ones remains constant simply because that is the nature of a mother.

Today as in the past, she makes the many secret sacrifices for her family which only a mother will make. And today, as in the past, she richly deserves the homage paid her on Mother's Day. And we might add that she also deserves the family's consideration throughout the rest of the year, too.

WEEKLIES AID THE INDUSTRY

The weekly newspapers that serve California's small communities are unsung partners of the construction industry. They are responsible directly or indirectly, for a sizeable amount of business coming the industry's way. The weeklies can be found in the forefront of any campaign for community improvements, whether new schoolrooms or a $30 million dam. It is often the weekly newspaper that puts the idea for a project in the community's head.

The newspaper's reward, aside from community respect, is frequently discouraging. Let's take an example. Forward-looking citizens of Middletown decide the elementary school is overcrowded. With the enthusiastic help of the weekly Middletown Gazette a bond issue is voted for additional classrooms.

But then what happens? Bids are opened the day after the Gazette goes to press. The part-time correspondent of a nearby daily newspaper is able to report immediately the important news of how much the new classrooms will actually cost. (The daily, by the way, gave no support to the bond campaign.) By the time the next Gazette comes out, the bid results are history.

Architects, engineers, and others who advise awarding authorities can help prevent this sort of thing from happening. It would be a simple matter to consult the local newspaper before scheduling the bid opening. In most cases, the opening could be held the day before the newspaper is published. No one would be severely inconvenienced. The weeklies have earned the right to expect this considration.

BEE HAS NO MARKETING PROBLEMS

The wild bee seems fortunate in having the raw honey provided for him in flowers with no effort on his part, until it is realized that he spends all his productive hours collecting, transporting, and depositing it in the carefully prepared cells he has built. There he stops, his honey hidden in a hollow tree.

Man's task of providing for his wants is as never-ending as the work of the honey bee, only more so. He is not satisfied to have his food stored in the most primitive manner. He has a marketing problem to make the results of his labor available for consumption, and this is a costly process.

It is reported that in 1953 two-thirds of the consumer dollar went for marketing costs. In other words, getting the results of man's labor to the consumer has grown from the "honey in the tree' era to the readymix cake flour and frozen food package age.

Who wants to trade the chance to distribute some honey at a profit for a bee's life?

TESTING A Speaker instrument on the judges stand on Harrison avenue Sunday evening just befor the awards were made, Tom Casey was calling . . "Testing, one, two, three, testing" which reminded me of what Congressman Charlie Gubser wrote to me this week of a telephone repair man on a phone in what purported to be a Congressional committee room, the repair man trying the instrument by calling ". . . Testing one billion, two billion, three billion. . . testing".

HOW COME I got in the parade, a lot of people have been asking me, so now I'll tell you . . . I was over at the luncheon for old settlers and there were convertible cars for the queen and her group of princesses, for the old settlers, the city officials, the parade marshall, parade committee and chamber of commerce directors so being one of the latter I qualified but there wasn't room for all of us in one convertible so they told me to get in the next car which I did just as some one signalled the driver to move along and follow the Council car, and it was a plush car too, the driver telling me it was one of the new Cadillacs just taken off the floor . . . down by the school, our news editor Vivian Faulkner was busy helping her son get started with a popcorn stand and Cliff Cassiday our shop foreman was going along passing out programs when they came face to face just as I was going by and they both said, "Hey look at our boss riding around in that Cad with a chauffeur and us out here selling pop corn and programs!" so I kept waving to those I recognized and my ears kept burning with comments of "how does he rate?" until finally we got to the starting point and I got Mario Saia to come sit with me and take some of the bows, plaudits and boos.

SENATOR Jack Thompson spoke at the Old Settler luncheon saying that he grew up in the Santa Clara Valley, and remembered the names of many of the old settlers, proceeding to tell a bit about each of them . . . said mostly they lived in ranch homes and that from here to San Jose proper there were but a half dozen houses and that going in by buggy one was sure to pass many Chinese going into Chinatown at San Jose which some seventy years ago was even larger than was the one in San Francisco, most of the homes here having Chinese helpers.

THE PARADE Brought out a lot of good talent, especially among the youngsters, one being a rip-roaring Indian raid on a pioneer wagon as put on by the new cub pack of Rosemary School which turned them loose with toy guns, tomahawks and Indian calls to re-enact some of the hazards which befell pioneers crossing the plains to Campbell in the early days . . . another was the cherry pie put on by the Home and School Club of Cherry Lane with six youngsters with helmets shaped like cherries poking their heads through the top crust of the pie, while a boy stood at the handle of a long knife, a wide-eyed girl waiting expectantly by a large platter awaiting her portion . . . there were many demonstrations as the parade moved along before the thousands of people here Sunday.

Hill said that Smith will be hard to replace as he is a hard worker giving long, effective hours to his work.

It takes *TCP* to get the full power from High Octane Gasoline

Cars being made today are the most powerful ever built. And with this extra power you also get extra economy—more miles per gallon.

The reason for these benefits is that today's engines are high compression engines and make more complete use of the power available in today's higher octane gasolines.

But did you know that the kind of driving most people do most of the time—*local* driving—can, in a short time, create a condition that offsets the extra power and economy that these engines should get from high octane gasoline.

Why? Because this kind of driving increases the build-up of certain combustion chamber deposits—the root of most power and gasoline waste. And to overcome these deposits you need a gasoline with a special kind of additive.

What happens is this:

As your engine warms up, these deposits warm up, too—glow red hot. And these glowing particles act like hot coals—ignite the gasoline mixture ahead of time . . . before the pistons reach proper firing position. This is called pre-firing and means that power works *against* you instead of *for* you.

In addition, these same deposits have another power-wasting effect: They foul spark plugs, causing your engine to miss.

Engineers will tell you there's nothing more wasteful of power and gasoline than pre-firing and spark plug "miss."

But there is an answer—there's *one* high octane gasoline that gives you *all* the advantages of high octane without the power-crippling effects of these deposits—Shell Premium Gasoline with TCP*.

TCP, the Shell-developed additive, fireproofs the deposits so that they no longer cause pre-firing. No longer can they glow red hot and ignite the gasoline mixture. And TCP stops spark plug "miss," too. Your spark plugs do the job they are supposed to do.

Start getting the full power built into your engine. Get Shell Premium with TCP. It's the most powerful gasoline your car can use!

*Shell's Trademark for this unique gasoline additive developed by Shell Research. Patent applied for.

Telephone Lines To Be Busy Here

The telephons company is looking forward to some kind of a record this Sunday. Mother's Day gives Pacific Telephone its second heaviest traffic load of long distance calls for the year—exceeded only by Christmas.

Last Mother's Day saw a gain of 13 per cent more toll calls than the preceding year. If the upward trend continues on the same scale this year, this Sunday will see 186,740 long distance calls going through telephone offices in Northern California and Nevada.

Pacific Telephone will add many extra toll operators for that day. In many cases, they will be operators who normally handle local calls.

To help speed calls, these suggestions were made by T. K. Nordheim, Pacific Telephone manager here:

1. If you know the number of the person you are calling, tell the operator. The call will go through faster.
2. Try to make your call in the morning, or after six o'clock at night when long distance boards are not so crowded.

Country Women Tour Huge Plant

Luncheon at Villa Felice preceded the pilgrimage to the Fiberglass Corporation taken Monday by fifty members and two guests of the Country Woman's Club. Mrs. Albert Ellic presided over the brief business session in the absence of Mrs. Lloyd Brown.

Mrs. Larry Critchlow gave a report on progress of the Library Tea scheduled for May 11, and Mrs. M. E. Willoughby spoke briefly of the meeting calendared for May 18 when Mrs. Robert Tonkins of San Jose State College will discuss the "Art of Weaving" and follow with a question and answer period.

The tour at Fiberglass started with a brief history of the company and its products which were described as stronger than steel, lighter than cotton, flexible as silk, and manufactured from raw material plentiful in the United States. Company officials said the primary reason for building the new plant here was because of cheaper transportation rates which paid for the cost of the plant.

The club was conducted through the huge plant in groups of five by a guide who explained each important step in making all forms of insulation.

Grange Hears Of Problems Facing Juvenile Court

Juvenile Court Chaplain Brown described incredible conditions and cases continually presented Juvenile Court at the April 26 meeting of the Orchard City Grange. Saying this is the most advanced and prosperous country in the world today, he cited case histories of abused and neglected children and babies who are living in indescribable filth; of alcoholic parents, and parents addicted to other vices who do not know or care what their children are doing or where they spend their time. He further stated most of these children read "so called" comic books and obscene literature or spend their time at too many movies that have a detrimental effect on young minds, and that churches could do much to help these youngsters.

Brown was introduced by the lecturer, Josephine Biller, after the meeting was opened by Herb Shadle, master of the Grange. District Deputy John Gordon obligated two new members in Short Form and the secretary, Sarah Blue announced five new applicants for membership. An interesting report on small farm progress was given by Mervin Keesling who also displayed a new and attractive packaging for dried fruit. He reminded members of the special conferring of the Fifth Degree to be held at the next Pomona meeting on May 7th at the Mt. Hamilton Grange in which his famous drill team will perform in special dresses. Harry Barnes, state Grange dignitary, gave a short report on what is being done in Washington concerning the water situation, and Sadie Proctor, home economic chairman, announced the next meeting will be held May 13 at the home of Mrs. Peggy Dodson at 820 S. San Jose-Los Gatos Road.

Refreshments were served by Robert Scholtz, chairman, assisted by Hallie and Carrie Harris, Hazel Nelson, and Gladys Brooks.

EL QUITO PARK SCHOOL HOLDS ITS FIRST ELECTION

Parents visiting El Quito Park School last week saw for themselves how elementary school children handled student body elections. This was Public School Week and the election was an added attraction—the first one for this school of 500 students which goes through the sixth grade.

Cecil Cox's sixth grade ended up with practically a landslide, with the candidates from that room gaining three of the four positions. New president is Mickey Testa, whose platform consisted in part of the promise of trying to please everyone. Mickey pointed to his past record in athletics, and to his reputation for quick and accurate decisions.

According to election rules, candidates from the two fifth grades alone were eligible for the vice-presidency, and Jeffery Hawkinson in Mrs. Mae Montmorency's room was the winner. The new V. P. had a large number of pins made which announced: "Hawk-in-Son is the One"—a subdued but apparently effective slogan.

The lone girl who won an office was Alice England, in Mr. Cox's sixth grade. Miss England promised to "keep the records clean", and indicated that she had done a satisfactory job in the past as the library monitor.

One of the most hotly contested offices was that of treasurer, which was filled by Tom Kelly from Mr. Cox's room. His campaign manager, Don Malone, with the assistance of his committee, painted greater than life-sized drawings of Tom, with the background enriched with such slogans as: "Honest, truthful, not a money miser." Tom became a humorist in his acceptance speech, which read in part: "If you have ever seen me run, you haven't seen nothing yet till you've seen me run with money."

The student body officers had their first meeting last Friday—the day after the election—and discussed yard and school problems. Advisor is Robert S. Tack, principal of the school.

In addition to the four officers, each room elected representatives to the student council. These children who were elected by their classmates were Chris Bolner and Connie Streight from the first grade of Miss Diane Bernard, and Lynda Skinner and Gary Porter from Miss Jane Sullivan's first grade. Second grade representatives from Mrs. Bertha Raab's room are Ann Freer and Ronnie Stanley; from Mrs. Frances Alfson's room, winners were Terri Morgan and Herald Malone. Miss Irma Cleary's second graders voted in George Patrick and Kathy Evans.

Representatives from the third grades are: Robert Poteet and Valkyrie Anderson from Mrs. Helen Taggart's room; Ricky Bergstrom and Marilyn Pozas from Mrs. Clara Straight's.

Fourth grade winners from Miss Margaret O'Donnell's room were Dianna McVey and Bobby Schafer; Miss Mary Hundley's room: Richard Cunningham and Virginia Martino. Fifth grade winners from Mrs. Hazel Hopkins' room were Kathy Leeper and John Lara; Mrs. Mae Montmorency's room: Barry Yoshida and Janey Nolte. Sixth grade winners from Mrs. Elaine Kelley's room were John Scarpace and Janice Bergstrom; Mr. Cecil Cox's room: Frank Testa and Nancy Prinz.

THOUSANDS SEE COLORFUL OLD SETTLERS' DAY PARADE

(Continued from Page 1)

ous reasons. At the last minute the thought of his older brother marching grandly down the street to the wonderful music of the bands was just too much so another placard was hastily made and fastened around his neck and he took his position at the rear of the mule.

Cub Pack 75 was another interesting unit which won a loving cup for first prize in its division. Since its formation Pack 75 has been noted for the activity of the small boys and adults alike. When parade time rolled around this year the leaders knew the boys were too active to keep straight rows if they marched so they decided to turn them loose, forget about winning an award and let the kids have fun. Someone thought up the idea of the wagon train being attacked by Indians and everybody started working on stuffed horses, wagons, pioneers and Indian regalia. As the parade started the boys had the time of their life fighting off the band of screeching Indians who circled the wagons and bit the dust realistically when shot dead. As a result no one was more surprised than Pack 75 when judges called for them to step forward and receive first prize.

Brownie Troop 99, Boy Scout Troop 73, Girl Scout Troop 371 and the Campfire Girl Cha-ki-ya entry caught the judges' eyes to win unit competition.

A special award was instituted for two boys driving a gas-powered miniature car. They executed finesse at the wheel and whirling turns that sent spectators scurrying for the sidewalks.

Downing stiff competition, the U. S. Naval Electronics School drill team from Treasure Island, emerged victor over two other military outfits. Its companion entry, the Electronics School band also won its division.

Other marching unit winners included Pat Mauldin's Sparklers, majorettes; Memory Post 399, amateur bands; Pala Elementary School, school bands; Pat Mauldin's baton twirler, solo majorettes and the Donnettes, drum corps.

In mounted competition, Bernie Caughey of Cupertino copped the single rider trophy.

Santa Clara County Horsemen's Assn. took the mounted group judging and Bessie and Hank Cano were named the best matcher pair.

Junior Wirth won his fourth trophy in the Whiskerino Contest. Results were announced Saturday night at the Coronation Ball.

A luncheon for Old Settlers was held at the Grammar School cafetorium at which time Martin S. Walsh, Campbell attorney was master of ceremonies. Walsh also was at the judges stand to announce each parade entry. Speaker at the luncheon was Senator Jack Thompson who said that he was born on Prospect Road and that his father had worked on the Leigh Ranch. He related incidents told him by his father, and named the families who were living in the Campbell area when Old Settlers Days first started in 1892. Seated at places of honor were Old Settlers Robert Scholz, Winnie Grizzle, George Robson, Mr. and Mrs. E. C. Merrill, Mr. and Mrs. W. E. Finnemore, Mr. and Mrs. Jess Collins, Mr. and Mrs. E. R. Kennedy, George Parso and Manuel Silva.

Police Chief Robert Locke had twenty special policemen on duty to handle the crowd, made up of regulars from the police force plus auxiliaries from Campbell and Los Gatos. Judges of the parade were Norman Bowman, Ruth Poindexter, Sal Milan, Christie Brown, A. A. Thilke, Douglas Harville and Fred Emley.

Tallulah Bankhead Coming To Alcazar Theatre New Show

Mail orders are now being received at the Alcazar Theatre in San Francisco for Tallulah Bankhead in "Dear Charles" which starts a limited engagement Monday, May 9th, with matinees Wednesday and Saturday.

The Fabulous Tallulah is breaking all records across the country with this Paris-London-New York sophosticated comedy which Richand Aldrich and Richard Myers in association with Julius Fleischmann are presenting with a distinguished supporting cast including Patsy Kelly of screen renown, Robert Coote, Theodore Newton, Werner Klemperer, William Roerick, Norah Howard, Larry Robinson, Tom Raynor, Grace Raynor, Ruth Hartley and Peter Pell.

Tallulah has the unusual role of a most attractive, unmarried mother, a French novelist too busy turning out best sellers to legitimatize her three children by three different fathers. However, the unpredictable Tallulah has her own hilarious solution to this madcap dilemma.

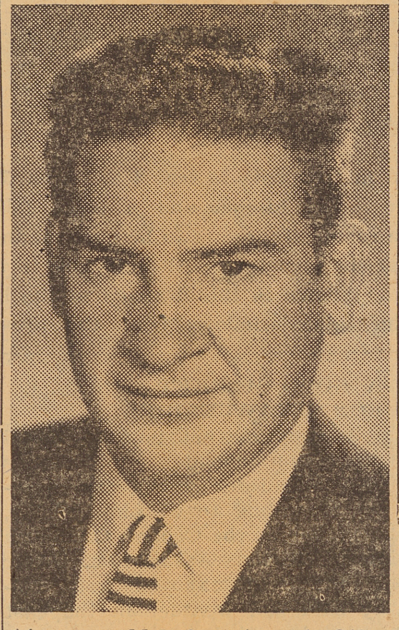
Miss Bankhead was last seen on the stage in Noel Coward's "Private Lives", and since then she has become a headline success in nationwide TV programs and night-club appearances in Las Vegas and other midnight metropolises.

In "Dear Charles" Miss Bankhead returns to the scenes of her greatest triumphs, the footlights. Edmund Baylies directed this farce-comedy.

Admission prices for the engagement of "Dear Charles" engagement at the Alcazar Monday through Thursday will range from $4.40 on the lower floor, $3.85 to $2.20 in the balcony. On Friday and Saturday evenings the prices will be $4.95 on the lower floor and in the balcony $4.40 to $2.75. Matinee prices on Wednesday and Saturday will be $3.85 on the lower floor, and $3.30 to $1.65 in the balcony. All prices include Federal tax.

Wade Wilson who is to be on the coaching staff at Campbell High School next Spring, is having a tryout practice at ten o'clock Saturday morning on the high school diamond for the Campbell Pony League which he is to direct this summer.

The initial practice will be restricted for boys who will not be



14 years old before Aug. 1. Other sessions will be held for older boys on May 21 and May 28.

Boys who will not be 16 before Aug. 1 are eligible for the Pony League program. Any boy in the Campbell Union High School district is eligible for the Campbell Pony League.

Representatives of the various schools expecting to participate in the Pony League program include: Joe Stein of Campbell Grammar; Ted Jones of Cambrian Park; Berkeley Mathews of Union; Jack Fischer of San Tomas; Wade Brummel of Burbank; Bob Sutter of Moreland; Miles Harrington of Sunol and John Allcorn of Almaden School.

Knopf Iris Gardens Win Coveted Award

Mrs. Maynard Knopf, of Knopf Iris and Hybridizing Gardens, received the coveted H. C. award given Sunday by the American Iris Society at the first convention held for region 14 which comprises all of the state of Nevada and California as far south as San Luis Obispo.

A feature of the convention which was held in San Jose last Saturday and Sunday was a tour of six Iris Gardens in which the award was given for the best unnamed seedling seen by the judges and the group.

The prize winning specimen grown by Mrs. Knopf which met with very favorable comment by the A. I. S. judges is seedling H S 52 whose parentage is Hoosier Sunrise crossed with Sable. The seedling in color is plum-self, with blue-tipped beard. It will be guested in Marion Walker's Gardens in Ventura for the A. I. S. national convention to be held in Los Angeles in 1956.

The touring group inspected thousands of the 23,000 seedlings planted two years ago by the Knopfs and were very curious about one, the blackest seen, which they blew open. Another, named Tobacco Road, was the color of a dried tobacco leaf.

Giannini Born 85 Years Ago In S J.

Brief ceremonies marking Founder's Day will be held at the Cambrian Park branch of Bank of America tomorrow as officers and staff under the direction of Roland Risso, manager of the branch, observe the 85th birthday of A. P. Giannini, founder of the statewide banking organization. Giannini was born in California, at San Jose, on May 6, 1870.

Highlight of the observance will be a message from President S. Clark Beise, specially recorded for the occasion, which pays tribute to Giannini and describes the day as one of re-dedication by staff members to the principles and ideals of the founder of the bank.

Vasona Seen As New Play Area

A land use plan as a basis for zoning and a guide to development has been proposed by Karl Belser, county planning director would propose recreation facilities near the Vasona Junction, two miles south of Campbell. It would include a golf course and picnic area. Also light industry near Lark avenue where Junipera Serra highway, if completed, will intersect Route 5.

Other areas would be set aside for orchards, homes and shopping sites.

The land use plan Belser will submit to the commission is not binding on property owners. Used as a guide, however, it could be a basis for establishing a zoning unit, which is binding.

Development of the area along useful, pleasant lines could be accomplished with a minimum of effort, Belser said.

The anniversary of the birth of Luther Burbank March 7 has been designated as California's Conservation, Bird and Arbor Day.

Here is the way the architect, Gifford Sobey has designed the new Congregational Church building to be erected soon at Carlyn and Campbell avenues, all of the structural features not being shown in this drawing. It is to be built around a large quadrangle with a grassy, landscaped mall in the center for recreational purposes. The front of the sanctuary capable of seating 324 persons in the Nave will eventually expand in trancepts to seat 450. A carillon tower, church offices, committee rooms, kitchen and a large fellowship hall will adjoin the fireside room. There are to be nursery and classroom units across the back of the structure. All units are to be connected with covered walkways. Shown in this drawing at the left is the sanctuary with the stained glass windows from the present structure on Central avenue built sixty-six years ago, next to which is the carillon tower, followed by church offices and the Fellowship hall at extreme right. The stained glass was presented the church by publishers of Popular Mechanics Magazine, in memory of their father, founder of the magazine who had been a member of this church.

Education For Handicapped Children Result Of Pioneer District Program

Not too many Campbell Union School District residents know their own district was a pioneer in the field of education for handicapped children.

Since 1928, the district has maintained an elementary teaching staff at Santa Clara County Hospital for children confined there, and who, of necessity must miss their normal school work.

Campbell District was one of the first in the state to provide such service for hospitalized youngsters.

The medical and nursing staffs at the hospital are enthusiastic about the educational program provided. They feel it is excellent therapy for the ill child, relieves discipline problems in the wards, provides mental stimulation, and creates a more nearly normal atmosphere for the youngster. All these factors are material aids to bring about early recovery from illness.

At present two teachers serve the hospital, one for the tuberculosis and polio sections, and one for the pediatrics division. Average attendance has been from 30 to 35 in grades from the first through eighth, according to Helen Peterson, District curriculum coordinator.

Average length of stay for a child in the tuberculosis sanitorium is eight months, while in the pediatrics section, the stays range from a week to six months. Nearly all these children return to their former schools when well, and are able to return to their own class and its work due to instruction received in the hospital.

POLICE SAFETY CAMPAIGN HERE IS PAYING OFF

Chief of Police Robert Locke said Monday his department had issued a total of 169 traffic citations for the month of April, a new high, and had recorded only two minor accidents.

Locke said his departmen's campaign for safer, saner driving is paying off and will continue with strict enforcement . Police are cracking down on speeders and giving citations for failure to signal or to stop at stop signs, making U turns in the middle of a block and numerous other traffic violations which tend to cause accidents or are hazardous to other drivers or pedestrians.

Chief Locke highly praised the Campbell Auxiliary Police and the seven Los Gatos Police officers who helped control traffic and keep the crowd in line for the Old Settlers' Day Parade and said they did an excellent job.

SCVAL Track And Swimming Finals Tonight

Varsity And C's Defending Champs

Campbell High defending varsity and C Track champions, plus the B and D teams will enter the track finals tomorrow night at 7 o'clock on the Los Gatos track with the notion of bringing home a multitude of gold medals plus some team championships.

Last year our varsity came through to win the finals by only one point ahead of James Lick while the C's copped their crown by a much safer margin.

This year's varsity squad will be led by Mike Profit shot putter, Monte Nielson, Doug Harrison, sprinters and Rod Sprecher and Roy Cureton in the hurdles. Hideo Sakamoto will be leading the B's in the low hurdles and will be backed by Max Kinsey, Pole vaulter, Barry Miller, sprinter, Buddy Scribner in the shot and Greg Hoffman in the 660 yard run.

Outstanding feature track and field events will be Varsity 120 High hurdles which match Henry Aguilar, outstanding James Lick hurdler against Campbell's Rod Sprecher. In the shot put, Mike Proffit has recorded a put of 53' 2" and is favorite in this event.

Fremont is the choice in Class B and is also strong in the Cand D classes. Campbell is rated a threat in all classes with Mountain View in Class B and Santa Clara in Class C also given a good chance for championships.

Tax Rate Slash Of 20 Cents Seen For Grammar District

A drop in the district school tax rate, now $1.80 for each $100 of assessed valuation is virtually assured for the 1955-56 school year to $1.60, trustees have indicated.

"Last year, voters of the district authorized a legal tax rate limit of $1.80. With these additional funds, an adequate reserve has been set aside for emergency purposes and to comply with State law. Now that these sums have been set aside, it is possible to lower district income from tax sources to the $1.60 level", said Edward A. Merrill, president of the board of trustees.

Taxpayers will note the reduction on their next county tax bills.

Dist. Supt. William C. Henley pointed out that with the coming budget, now in preparation, district finances are in sound shape and capable of withstanding costs incurred in educating up to 5,000 pupils expected in class next year.
